GET OUTSIDE
THE PAINT COLOURS THAT WILL TRANSFORM YOUR GARDEN

2022 NEW EDITION

ENJOY 365 DAYS OF COLOUR IN YOUR GARDEN

EASY PROJECTS AND QUICK TRANSFORMATIONS
FOR AN OUTDOOR HAVEN YOU'LL WANT TO
LINGER IN - EVERY SEASON OF THE YEAR

MARIANNE
SHILLINGFORD
CREATIVE
DIRECTOR

'Now, more than ever, we're appreciating our **outdoor space**, and this guide is packed with ideas to make the most of it all year round, starting with a garden cinema. I love the idea of reconnecting with friends and family over a **Summer of Screen Sharing** and watching a favourite film, the big match or must-see telly in the fresh air. Later, I'll be planning my own **Autumn Retreat**, a spot to press pause and enjoy a cup of tea whilst listening to the birds sing. And now I know how to perk up a grey winter's day: firing up the barbecue in an outdoor kitchen to host a **Big Chill Grill**. Whatever the season, let our colours inspire you to **reclaim your great outdoors** all year long.'

Discover the perfect shades for your garden

White Daisy™

A SUMMER OF SCREEN SHARING

Transforming your garden into a cosy cinema is easy with our step-by-step **How-To**. Create the ultimate venue for friends and family to enjoy the season's biggest sporting events, the Platinum Jubilee – or your favourite rom-com

COSY ALL YEAR LONG

All it takes are wooden pallets fixed together and a few coats of Garden Shades. We used Urban Slate™ on the pallet bed and Natural Stone on the coffee table for a sophisticated look. The paint's protective qualities mean your new furniture will last through the colder months, making it usable all year round. Great news for movie nights with friends – get the popcorn ready!

STEP BY STEP

1 Clean and sand 4 pallets. Prop them into an L-shape and secure with screws.

2 Attach heavy-duty castor wheels underneath

3 Apply two coats of Garden Shades

4 When dry, wheel into position and add cushions

WHAT YOU'LL NEED

CUPRINOL
GARDEN
SHADES

-  Natural Stone
-  Urban Slate™
-  Dusky Gem™

Discover how to transform your garden every season by scanning the QR code on our cover, or visit Cuprinol.co.uk

ALL-YEAR ALFRESCO

Try our **Weekend Project** and create a garden dining space for outdoor occasions – day or night. Whatever the season, it's the perfect spot to celebrate with loved ones...

WHAT YOU'LL NEED

CUPRINOL GARDEN SHADES

-  Seagrass
-  Wild Thyme™
-  Forget-Me-Not™
-  Sage
-  White Daisy™
-  Purple Pansy™

PROTECT IN ALL SEASONS

The Garden Shades Nature's Neutrals collection will lift any scheme and make it easy to breathe new life into an old patio set. What's more, it provides all-weather protection for wood, terracotta, stone and brick. It's a simple and colourful way to extend the life of outdoor furniture so you can use it all year round.

Discover how to transform your garden every season by scanning the QR code on our cover, or visit Cuprinol.co.uk

STEP BY STEP

1 Clean and sand all over your table and chairs.

2 Apply first paint colour. When dry, apply masking tape.

3 Paint with a contrasting colour. When dry, remove tape.

4 Style up with cushions, a runner and tableware.

SEASONAL DETAILS

Over the winter, create a cosy vibe with snuggly faux fur throws, candles and festoon lighting. In warmer weather, opt for an outdoor rug, terracotta pieces and a linen table runner.

MADE TO LAST

Refresh your fencing with this **Done in a Day** project - you'll create a stylish, two-tone backdrop for your garden while you protect it from the elements

Weather-proofing your outdoor fencing, sheds and furniture doesn't have to be a chore. Easy to apply and non-drip, Cuprinol Ducksback is shower-proof in an hour - and will keep your garden looking smart for up to 5 years. Thanks to its wax-enriched formula, the paint is water-repellent and also offers frost protection so your garden can withstand harsh winters and wet weather all year round. If you've gone for a shed makeover, don't forget to enter our **Shed of the Year 2022** competition. Browse through previous winners and submit your own entry at Cuprinol.co.uk.

WHAT YOU'LL NEED

CUPRINOL DUCKSBACK

-  Silver Copse™
-  Black
-  Forest Green

INSPIRED BY NATURE

The Cuprinol Ducksback formula mimics the water-repellent properties of... a duck's back. So you're free to brighten your outside space knowing it's being treated with a waterproof barrier at the same time.

WEATHER PROOFING

STEP BY STEP

1 Gently fasten plants away from your fencing with garden canes or string.

2 Remove any weeds or debris and clean the panels with a brush.

3 Apply 1 coat of Cuprinol Ducksback, choosing a darker shade for the base of your fence and a lighter one for the top.

4 Leave to dry for 2-4 hours before adding a second coat. Put plants back once the surface is dry.

Discover how to transform your garden every season by scanning the QR code on our cover, or visit Cuprinol.co.uk

AUTUMN RETREAT

The cooler weather is your cue to create a cosy outdoor snug – follow our **Colour Class** to find soothing blues and greens for a nature-inspired garden sanctuary. Just curl up with a cocoa and watch the wildlife go by

Discover how to transform your garden every season by scanning the QR code on our cover, or visit Cuprinol.co.uk

There's never a wrong time to give your garden furniture a fresh lick of paint, but autumn is a brilliant moment to consider adding mood-boosting colour to your outside space. Sage, the colour we used on the tabletop above, makes the perfect canvas for a warm drink and candlelight when the evenings start to draw in. The other upside? You're not just brightening your furniture – you're protecting it, too. Two coats of Garden Shades paint will protect wood from all kinds of weather for up to 6 years.

WHAT YOU'LL NEED

CUPRINOL GARDEN SHADES

Seagrass

Forget-Me-Not™

Sage

Silver Birch

STEP BY STEP

1

Brush off dirt, clean and allow to dry.

2

Apply a coat of Garden Shades and allow to dry.

3

Apply a second coat of paint.

4

When dry, loop foliage and hang festoon lights around the beams

AUTUMN CUES

Take inspiration from the shades of the season when choosing colours for your garden – autumnal hues, such as our Seagrass and Sage greens and Forget-Me-Not™ blue, work wonderfully together to create a perfect, cosy outdoor retreat.

WELCOMING WILDLIFE

Provide shelter for little critters with our easy-to-paint **Nature's Hacks** – simple ways to make your garden perfect for nature-watching

1 NESTING BOX – BRING IN THE BIRDS

Imagine sitting outside listening to the delicate sound of songbirds... The cossetting safety of a bird house is a brilliant way to attract feathered friends to your garden. Make sure their new home is protected from harsh weather with Garden Shades. Here, we've used two coats of Natural Stone and Willow, which give up to 6 years' protection.

2 HOPPY HOTEL – CARE FOR CREATURES

Encourage frogs and toads into your garden by giving them their very own shelter. Craft one using old downpipes and a bowl, or purchase one ready-made. A ceramic, frost-resistant version can easily be updated with a coat of Garden Shades. Here, we've used Coastal Mist™. Position in a cool, shady spot and it's perfect for all your hoppy friends.

3 BIRD FEEDER – GIVE BACK TO NATURE

Whether it's spring, summer or autumn, there's sure to be a flock of hungry birds that would welcome a visit to a new hanging feeder in your garden. Have a go at making and painting your own from scratch or revamp an existing one with a couple of coats of Garden Shades. Here, we've gone for a two-tone design using Sage and Silver Birch.

- Natural Stone
- Willow
- Sage
- Silver Birch
- Coastal Mist™

INSPIRED BY NATURE

Garden Shades allow your projects to blend with the natural beauty you find outdoors. Nature's Neutrals are colours inspired by foliage and earthy organic materials and work best for larger elements like fences, decking and pergolas. Bring contrast to your garden with shades from Nature's Brights – like flowers, they bring joyful pops of colour to smaller items such as plant pots.

BIG CHILL GRILL

Who said barbecues were only for the summer? **Let's Go Outside** and embrace the winter months with your very own garden kitchen. Here are some ideas to get you started

1 BARBECUE STATION

Flip summer hosting on its head with an outdoor kitchen made for colder months - it's ideal for preparing food and gathering with friends. Painted in Natural Stone with a Sage counter-top, it blends with the garden for a calming scheme. For a clever storage solution, try painting wooden crates in Fresh Rosemary - perfect for stowing away those BBQ utensils.

2 BRICK LOG STORE

Freshen up your brickwork with Garden Shades. Here, we've updated an outdoor log store with Natural Stone, a warm and gentle hue. We painted the inside in Black Ash to add contrast, as well as to frame the space and make a feature of the logs. Keeping the store open will encourage air to circulate between the logs and keep each piece dry.

3 COFFEE TABLE AND CHAIR

Set the scene with a coffee table and low wooden deckchair that feel warm and welcoming. The colours of the tabletop (Willow) and the chair (Muted Clay™) bring the nature-inspired scheme together, while faux fur throws and hurricane lanterns add a touch of cosiness. For maximum warmth, keep extra throws, mulled wine and cocoa on standby.

EXPERT HELP

Marianne Shillingford

'With a beautiful palette and seriously tough technology, Garden Shades is my star pick when it comes to colouring, and protecting, wood outside. Better still, its texture allows the grain of the wood to shine through, meaning it's a natural choice when it comes to painting everything from furniture to fences.'

*Please note that not all colours come in all sizes. †Occasionally wet or interior wood with risk of condensation. Cuprinol Ultimate Garden Wood Preserver and Cuprinol Wood Preserver Clear (®) contain Propiconazole and IPBC. Cuprinol Decking Cleaner contains Benzalkonium Chloride. Use Biocides safely. Always read the label and product information carefully before use.

CUPRINOL GARDEN SHADES

We have produced product colours as accurately as printing will allow. Unfortunately, we cannot guarantee an exact colour match, and the colours contained in this guide should not be relied on as such. The appearance of the actual colour can be affected by the substrate and the texture of the surface. Wherever colour testers are available, please use them on the actual surface to which the product is to be applied before undertaking the application. This will give you a stronger indication of the appearance of the actual colour. If a colour tester is not available, then try the product on a small, inconspicuous area of the surface before undertaking the full application. Special precautions should be taken during surface preparation of pre-1960s paint surfaces over wood and metal as they may contain harmful lead. For further advice contact AkzoNobel, Cuprinol, the tree device, Garden Shades, Ducksback, Hammerite, Dulux, AkzoNobel, AkzoNobel logo and colour names marked TM are trademarks of the AkzoNobel group.
© AkzoNobel 2022.

Registered pesticide/biocide – see information below:
Cuprinol Ultimate Garden Wood Preserver and Cuprinol Wood Preserver Clear(BP) contain Propiconazole and IPBC. Cuprinol Decking Cleaner contains Benzalkonium Chloride. Use Biocides safely. Always read the label and product information before use.

We have used 25% recycled content in some of our Cuprinol cans to reduce their environmental impact. Rather than bin it, why not recycle this gorgeous guide or share with a green-fingered friend when you're finished with it? Pass our advice forward.
